Assignment 3:

Output:

Assignment 4:

Output:

Name:

Age:

☒ Above 18

☐ Below 18

Phone Number:

Email-ID:

Choose the Field: ▼

Assignment 5:

Output:

The screenshot displays the phpMyAdmin web interface. On the left, a sidebar shows a database structure with several databases listed, including 'test'. The main panel shows the 'form' table selected. The table structure is defined by the SQL query: `SELECT * FROM `form``. The table has the following columns: `id`, `firstname`, `lastname`, `email`, `city`, and `company`. A single row of data is displayed with the following values: `1`, `jeni`, `shah`, `jeni@gmail.com`, `surat`, and `sdghj`. The interface includes various toolbars for database management, such as 'Browse', 'Structure', 'SQL', 'Search', 'Insert', 'Export', 'Import', 'Privileges', 'Operations', 'Tracking', and 'Triggers'. A 'Bookmark this SQL query' dialog is also visible at the bottom.

id	firstname	lastname	email	city	company
1	jeni	shah	jeni@gmail.com	surat	sdghj

Assignment 6:

Output:
